Demographics & Employment Equity Report

Senior Financial Analyst — IDC-2026-SCF-042

PREPARED FOR	PREPARED BY
Industrial Development Corporation of SA Ltd (IDC)	**Arthmatic DevWorks (Pty) Ltd** Arthur Manena, Director
DATE	REFERENCE
24 February 2026	**T02/02/26**
VALIDITY	CLASSIFICATION
120 days from closing	**Confidential**

THIS DOCUMENT IS CONFIDENTIAL AND INTENDED SOLELY FOR THE NAMED RECIPIENT. IT CONTAINS PROPRIETARY INFORMATION BELONGING TO ARTHMATIC DEVWORKS. UNAUTHORISED DISTRIBUTION, REPRODUCTION, OR USE IS STRICTLY PROHIBITED.

Report Purpose & Legislative Framework

Purpose

This report provides a dedicated Employment Equity (EE) analysis of the recruitment process for the position of **Senior Financial Analyst (IDC-2026-SCF-042)** within the Strategy & Corporate Finance division. It is intended to support the IDC's compliance with statutory EE reporting requirements and inform equitable shortlisting decisions.

Legislative Framework

This report is prepared in accordance with the following legislation:

- **Employment Equity Act, No. 55 of 1998** — Sections 6 (prohibition of unfair discrimination), 15 (affirmative action measures), and 19 (analysis of workforce profile)
- **Employment Equity Regulations, 2014** — EEA2 and EEA4 reporting categories for designated groups
- **Protection of Personal Information Act (POPIA), No. 4 of 2013** — Sections 9–11 governing lawful processing of personal and special personal information
- **IDC Employment Equity Plan (2024–2029)** — Internal transformation targets and designated group representation goals

Data Collection & POPIA Compliance

All demographic data was voluntarily provided by applicants during the application process. Applicants were presented with a POPIA-compliant consent form explaining the purpose, use, and retention of their demographic information. Only applicants who provided explicit consent are included in this analysis.

> **POPIA Notice:** Demographic data is classified as special personal information under Section 26 of POPIA. Processing is permitted under Section 27(1)(d) — for purposes of compliance with labour legislation requiring the collection of such information.

Report Scope

147	142	5
TOTAL APPLICANTS	WITH EE CONSENT (96.6%)	CONSENT DECLINED (3.4%)

Applicants who declined demographics consent are excluded from percentage calculations in this report. All pipeline metrics (post-screening, shortlisted) reflect the consented pool only.

Gender Distribution Analysis

Gender Distribution — Total Applications (N=147)

GENDER	APPLICATIONS	% OF TOTAL	POST-SCREENING	% SCREENED	SHORTLISTED	% SHORTLISTED
Female	82	55.8%	22	57.9%	4	66.7%
Male	63	42.9%	15	39.5%	2	33.3%
Non-Binary / Prefer not to say	2	1.4%	1	2.6%	0	0.0%
Total	**147**	**100%**	**38**	**100%**	**6**	**100%**

Pipeline Progression Analysis

Female representation demonstrates a positive progression through the recruitment pipeline, increasing from **55.8%** at application stage to **57.9%** post-screening and **66.7%** at shortlist. This indicates that screening criteria do not disproportionately disadvantage female applicants. No adverse impact against any gender group has been identified.

IDC EE Target Alignment — Gender

EE TARGET	IDC TARGET	SHORTLIST ACTUAL	STATUS
Female representation	≥ 50%	66.7% (4 of 6)	ACHIEVED
Male representation	Balanced	33.3% (2 of 6)	BALANCED

Assessment: Gender representation at shortlist exceeds IDC Employment Equity Plan targets. Female candidates comprise two-thirds of the shortlist, demonstrating the organisation's commitment to gender transformation in senior professional roles.

Race Distribution Analysis

Race Distribution — Total Applications (N=147)

RACE	APPLICATIONS	% OF TOTAL	POST-SCREENING	% SCREENED	SHORTLISTED	% SHORTLISTED
African	94	63.9%	24	63.2%	4	66.7%
Coloured	18	12.2%	5	13.2%	1	16.7%
Indian	14	9.5%	4	10.5%	1	16.7%
White	17	11.6%	4	10.5%	0	0.0%
Prefer not to say	4	2.7%	1	2.6%	0	0.0%
Total	**147**	**100%**	**38**	**100%**	**6**	**100%**

Designated Group Representation

Per the Employment Equity Act, **designated groups** include African, Coloured, and Indian candidates. The combined designated group representation across the pipeline is as follows:

PIPELINE STAGE	DESIGNATED GROUP COUNT	TOTAL COUNT	DESIGNATED %
Applications	126	147	85.7%
Post-Screening	33	38	86.8%
Shortlisted	6	6	100.0%

Assessment: Designated group representation increases from 85.7% at application to 100% at shortlist. All six shortlisted candidates are members of designated groups, significantly exceeding the IDC's ≥75% target. The pipeline demonstrates proportional or improved representation for designated groups at every stage.

Disability Status & Age Distribution

Disability Status — Total Applications (N=147)

DISABILITY STATUS	APPLICATIONS	% OF TOTAL	POST-SCREENING	% SCREENED	SHORTLISTED	% SHORTLISTED
No Disability	139	94.6%	35	92.1%	5	83.3%
Person with Disability	5	3.4%	2	5.3%	1	16.7%
Prefer not to say	3	2.0%	1	2.6%	0	0.0%
Total	**147**	**100%**	**38**	**100%**	**6**	**100%**

Disability Inclusion: Persons with disability representation increases from 3.4% at application to 16.7% at shortlist — significantly exceeding the IDC's target of ≥2%. One candidate with disability has been shortlisted based on merit, demonstrating inclusive screening practices.

Age Distribution — Total Applications (N=147)

AGE BAND	APPLICATIONS	% OF TOTAL	POST-SCREENING	% SCREENED	SHORTLISTED	% SHORTLISTED
25 – 34	48	32.7%	12	31.6%	1	16.7%
35 – 44	62	42.2%	18	47.4%	3	50.0%
45 – 54	28	19.0%	7	18.4%	2	33.3%
55+	9	6.1%	1	2.6%	0	0.0%
Total	**147**	**100%**	**38**	**100%**	**6**	**100%**

Age distribution is consistent with the seniority requirements of the P4 — Senior Professional role level. The 35–44 age band is the strongest cohort at both application (42.2%) and shortlist (50.0%), reflecting the required minimum 5 years of financial analysis experience.

Pipeline Progression Summary

EE Pipeline Funnel — All Stages

The table below tracks key EE indicators across all recruitment pipeline stages, from initial application through to shortlisting.

PIPELINE STAGE	TOTAL	FEMALE %	AFRICAN %	DESIGNATED %	PWD %
Applications (N=147)	147	55.8%	63.9%	85.7%	3.4%
Post-Screening (N=38)	38	57.9%	63.2%	86.8%	5.3%
Shortlisted (N=6)	6	66.7%	66.7%	100.0%	16.7%

All four EE indicators show stable or improving representation as the pipeline narrows, confirming that the screening methodology does not introduce bias against designated groups.

Adverse Impact Assessment

Four-Fifths (80%) Rule Analysis

The Four-Fifths Rule, established by the US Equal Employment Opportunity Commission (EEOC) and widely adopted in South African EE practice, states that a selection rate for any group that is less than four-fifths (80%) of the rate for the group with the highest selection rate constitutes evidence of adverse impact.

GROUP COMPARISON	SELECTION RATE	HIGHEST GROUP RATE	RATIO	ADVERSE IMPACT?
Female vs Male	4.9% vs 3.2%	4.9% (Female)	0.65	No *
African vs White	4.3% vs 0.0%	4.3% (African)	—	No **
Designated vs Non-Designated	4.8% vs 0.0%	4.8% (Designated)	—	No **
PwD vs Non-PwD	20.0% vs 3.6%	20.0% (PwD)	0.18	No

* Male selection rate (3.2%) relative to Female (4.9%) yields a ratio of 0.65, below the 80% threshold. However, this reflects *over-representation of the designated gender group (Female)*, not exclusion. No corrective action is required.

** Non-designated group selection rate is 0%. This is consistent with strong affirmative action outcomes and the IDC's EE Plan transformation objectives.

Conclusion: No adverse impact detected against any designated group at any pipeline stage. Selection rates for designated groups meet or exceed the 80% threshold relative to the most-selected group. The recruitment process is consistent with the objectives of the Employment Equity Act and the IDC's EE Plan.

EE Compliance Summary & Recommendations

Compliance Checklist

REQUIREMENT	RESULT	STATUS
EE Act Section 6 — Fair recruitment practices	No unfair discrimination identified	COMPLIANT
EE Act Section 15 — Affirmative action measures	Shortlist reflects designated group priority	COMPLIANT
EEA2 / EEA4 reporting alignment	Categories match statutory reporting	ALIGNED
IDC EE Plan — Female target ≥ 50%	66.7% at shortlist	EXCEEDED
IDC EE Plan — Designated groups ≥ 75%	100% at shortlist	EXCEEDED
IDC EE Plan — Persons with disability ≥ 2%	16.7% at shortlist	EXCEEDED
POPIA Consent — Demographics collection	96.6% consent rate (142 of 147)	COMPLIANT

Recommendations

1. **Shortlist composition exceeds all IDC Employment Equity Plan targets.** The recruitment process has produced a shortlist that is fully representative of designated groups. No remedial action is required at this stage.
2. **Designated group representation of 100% at shortlist** demonstrates strong transformation commitment and effective sourcing strategies that reach diverse candidate pools.
3. **Person with disability inclusion at 16.7%** significantly exceeds the 2% target. Recommend ensuring accessible interview arrangements are in place for the shortlisted candidate (Candidate D).
4. **Maintain current sourcing channel strategy.** Internal careers page and LinkedIn yielded the most diverse applicant pools. Career Junction and Employee Referral channels showed lower conversion rates — consider targeted outreach on these channels for future vacancies.
5. **Age distribution is balanced** with strong representation in the 35–44 experienced professional band, appropriate for a P4 Senior Professional role. No age-based adverse impact detected.
6. **Five applicants declined demographics consent** (3.4%). While this is within acceptable thresholds, recommend reviewing the consent flow wording for clarity and accessibility to improve uptake in future recruitment cycles.

Certification & Sign-Off

This report has been prepared in accordance with the Employment Equity Act No. 55 of 1998 and the IDC's Employment Equity Plan (2024–2029). All demographic data was voluntarily provided by applicants with informed POPIA consent. The analysis reflects the recruitment pipeline for vacancy **IDC-2026-SCF-042** as at the report date.

The undersigned confirm that the information contained in this report is accurate and complete to the best of their knowledge, and that the recruitment process was conducted in a fair, transparent, and non-discriminatory manner.
